About This Game

This thrilling new adventure game from master storyteller Jane Jensen (*Gabriel Knight, Gray Matter*) and Phoenix Online Studios (*Cognition, The Silver Lining*) introduces Malachi Rector, an expert in antiquities whose photographic memory and eye for detail transform people and clues into interactive puzzles.

When a secretive government agency enlists him to determine whether a murdered woman in Venice resembles any particular historical figure, Malachi is left with only questions. Why would the U.S. government hire him -- a dealer of high-end antiques -- to look into a foreign murder? Why does David Walker, a former Special Forces operative he meets in his travels, feel like someone Malachi's known all his life? And how come every time Malachi lets his guard down, someone tries to kill him?

Moebius: Empire Rising is a contemporary adventure that merges classic point-and-click puzzle solving with Jane Jensen's sophisticated storytelling. Travel the world using Malachi's unique deductive powers to analyze suspects, make historical connections, and uncover the truth behind a theory of space and time the government will defend at any cost.

Title: Moebius: Empire Rising
Genre: Adventure, Indie
Developer:
Phoenix Online Studios
Publisher:
Phoenix Online Publishing
Release Date: 15 Apr, 2014

b4d347fde0

Minimum:

OS: XP/Vista/7

Processor: 2.0 GHz

Memory: 2 GB RAM

Graphics: ATI or NVidia with 512 MB RAM**

Storage: 4 GB available space

Additional Notes: ** - Not recommended for play on Intel systems with integrated/shared video memory

English,German,Italian,French,Polish

听着，老伙计，不久的将来你一定会为你离开我为你准备的决定而后悔，因为这代表着你会遇到一些小麻烦。
是的，小麻烦。我想从我这加大加粗的字体你应该意识到了问题的严重性。
我不在乎什么魔族勇士，也不管你有怎样不切实际的企图。请永远记住，你是一个失败者。
从头到尾，从开始到结束，你永远，是一个，失败者。

Just finished, what a ride, music and sound effects was top notch and often unsettling. Story was thoroughly thought out and pieced together magnificently as the game unfolds. Has a very rich deep space horror feeling that I have not had since Dead Space 1, would strongly recommend fans of retro\/horror games to check this game out!. I even advised my grandmother to play this game.. love this game great for playing with mates. It looks like a decent platformer. Don't be fooled though, it's\u2665\u2665\u2665\u2665\u2665. no no no no guys no... the game play is really shoddy. The trailer got me PUMPED until I experienced the clunky controls :\/ Maybe this concept with Left 4 Dead would be otherworldly! But this game needs serious gameplay attention before I recommend it for its current price tag..... I am using a Samsung Odyssey+ Windows Mixed Reality headset and get a terrible double image that makes the game unplayable. There appears to be no way to adjust it in game. I have not had this problem with other Steam VR games that I have tried.. It is like a smaller version of Beyond the sword, if you want to play a civ4 expansion on a laptop, and can not install the bigger expansion, then this game is for you. It is lot of fun.

poo, just pure poo. its like playing a game from the 1990's or an alpha build. it is a short game, it is nice to kill a few minutes but honestly there isn't much to it and it gives more questions than it entirely answers, obviously you can figure out most of it with all the clues but not much is actually explained in a concrete way. THIS GAME IS A GIFT FROM GOD. if you enjoy 2D fighting games with a LOT of blood and gore than this is the perfect game for you. multiplayer onlin

pls. I know it's a short game going in, which is cool with me, because I spend a lot more on going to a movie which is even shorter and I don't get to play it.

I like the story. The characters. The little joking they do. It's got an anime feel to it, and not just because of the drawing style. I'm taking my time, exploring, and looking for everything. Gonna wring my two bucks worth from it.

So far, I do not see any imbalance like one reviewer posted. Milly is not hitting for more damage with her wand than she does with her spells. That's not even close to true. I see I'm not the only one who found that review to be wrong. I'm doing okay against the tough lizards, but that might be because I leveled up more than a player who tries to rush through. It might also be because I got the game after some patches.

Mainly, I got the game now because I'm looking forward to the sequel with the catgirls. :) I'm enjoying it so far.
